Elmhirst genetics add value!

Welcome

There has not been a time in the modern history of the livestock business that there has been as much excitement, optimism, enthusiasm and potential as there is right now. Hopefully by now, each one of us who has travelled the bumpy road that is this cow business has had the opportunity to capitalize on this strong market and reap the rewards of the perseverance and dedication required to raise livestock. Like everyone else in this business we are eternal optimist and with record low inventories, plenty of feed and lower corn prices we expect a healthy, prosperous, sustained market for many years. Hence, now is the time to invest in superior seedstock to capitalize on the market and we think this years offering includes numerous opportunities to add value and quality to boost your bottomline. We specialize in lower birth weight bulls in all breeds that can also spread to impressive weaning and yearling weights to accomodate the needs of the majority of beef producers in this area. But as always we also have some absolute scale busters that can power up a cowherd and a calf crop. This year in particular we have some big time breeder bulls, like a Darlin son, a Supreme Champion bull, a brother to the Genex favourite Kaboom, a son in the Hereford pen of the Supreme Chamion Evolve, a couple Royal banner winners and many more. The female side offers some elite show prospects for the young or young at heart and a raft of maternally oriented prospects to elevate any program. With special focus on Showdown in Ontario, check the pair of Angus heifers selling, and get in the game! As you will see on the horizon north of the the big barn at the home farm (that was built in 1850), we are a multi generational family in this for the long haul and our mission is and always has been; to source, breed and supply top end genetics to our customers to help them succeed in the beef industry.

If we can assist you with any of your plans to participate in Source for Quality on March 9, feel free to contact any of the Elmhirst family.

ONLINE BIDDING

Online bidding has become a large part of the auction industry and if you need assistance contact Emily or ourselves to get you set up. To bid online, please sign up before the sale.

 BLACK BALDY

Boomshakalaka has been the backbone of our breeding program and is widely accepted and admired across the breed throughout North America. We unfortunately lost BOOM just before his 10th birthday but as luck would have it managed to squeeze a few more doses out of the Brazilian supply. A bull that continues to leave a positive impact wherever he is used and will for a long time to come.
