Welcome to Charsha Farms

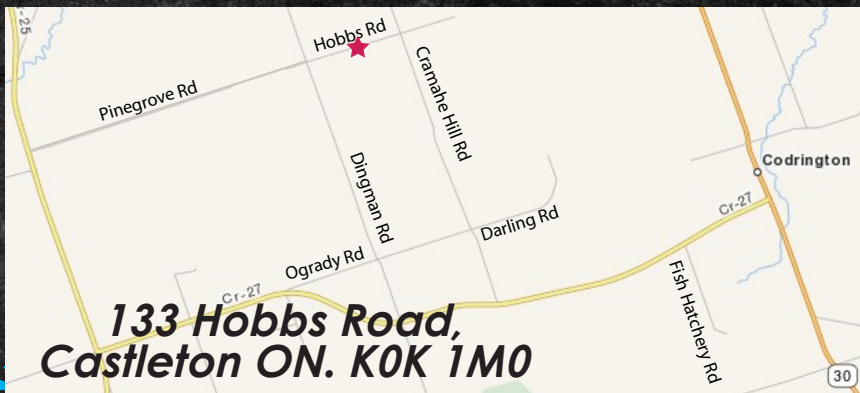

Here it is Open House time again! What a mild winter we have had this year! We would like to invite you to join us at our fourth Open House and Private Treaty Bull and Female Sale.

Charsha Farms is a fourth generation family run and operated farm. Our farm is located in the rolling hills of Northumberland County.

Along with Darling Farms (Limousin) we would like to show everyone a solid and sound set of bulls and heifers for viewing. We were very successful in the showing world with a few of these bulls last year and feel they will go out there and work hard in both the commercial and purebred worlds. Our females on offer are all backed by generations of elite cow families.

We have added a concrete yard for our bulls this past year and really happy with how it has helped with housing the extra bulls we have wintered. Much nicer to picture and video as well!

We have a strong love for the Hereford breed and strive to have new genetics, excellent growth and hard working bloodlines. We hope you can make it out on March 24th for a nice visit and some cattle talk with some good food. Lunch to be provided. Thank you from the Hobbs Family, Pat, Erin, Aiden and Meegin

TERMS AND CONDITIONS:

Bulls sell under the standard terms and conditions set out by the Canadian Hereford Associations respectively.

All bulls are sold on a first come, first serve basis. Scrotal measurements and final weights will be available on sale day. All bulls have been fully vaccinated.

This All In son had a very exciting and successful 2023 show carrier with us. His calm temperament made him easy to work with. We are thrilled with all of our All In offspring. The overall length and growth of this guy is sure to impress and add pounds to anyone's herd. Homo polled.

This is a powerful Revolution son out of a no miss cow we bought from Elm-Lodge. This guy is shaping up to be a great cow maker. He was a part of our 2023 show string leading into the fall.

Here is a Twentytwelve 190Z son who has great rib, excellent feet and a solid front end. Don't forget to look at the EPD's on this guy. We have retained many females off of him over his few years of service on our herd. Full herd health. Heterozygous Polled.
